PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience delivering end-to-end products across insurance-tech, fintech, and lottery & gaming domains. At PolicyX.com, I own the Motor Insurance module (Car & Bike) and have built Term Insurance, Health Insurance, and the SharesCart unlisted-shares platform — all using PHP/Laravel, MySQL, and Anthropic Claude AI API. Previously at Skill Lotto (Sugal & Damani), I built 4 lottery & gaming platforms (Book My Rajshree, SkillLotto, SkillRock) across the full modern stack: React.js, Next.js, Node.js, Redux, PHP, and Laravel.

TECHNICAL SKILLS

Backend (Current): PHP, Laravel, Core PHP, RESTful API Design & Integration, Payment Gateway

Full Stack (Previous): React.js, Redux, Next.js, Node.js, PHP, Laravel, jQuery, JavaScript (ES6+)

AI / LLM: Anthropic Claude API — data-mapping engine, AI admin dashboard, prompt engineering

Insurance Domain: Motor (Car & Bike), Term Insurance, Health Insurance — quote, KYC, policy issuance

Lottery & Gaming: Ticket booking, result management, wallet systems, high-concurrency draw flows

Database: MySQL — schema design, query optimisation, performance tuning

Tools & Practices: Git, GitHub, VS Code, Unit Testing, Clean Code, OOP, DSA

WORK EXPERIENCE

Full Stack Developer

Apr 2025 – Present

PolicyX.com Insurance Web Aggregator Pvt. Ltd. — policyx.com | sharescart.com

Motor Insurance (policyx.com/motor-insurance)

- Led end-to-end development of the Motor Insurance module — Car & Bike insurance from scratch.
- Integrated 10+ third-party insurer APIs for real-time premium quotes, KYC validation, and instant policy issuance.
- Built proposal forms, payment gateway integration, and policy download flows using PHP/Laravel + jQuery.
- Optimised API response time by 25% through backend refactoring and MySQL query tuning.

Term Insurance (policyx.com/term-insurance)

- Developed term insurance frontend flows and backend API integrations for quote comparison and lead capture.
- Built dynamic frontend flows and backend API integrations using PHP/Laravel handling complex eligibility logic and insurer-specific fields.

Health Insurance

- Contributed to health insurance module — premium calculation flows, insurer API integration, and UI components.

SharesCart – Unlisted Shares Platform (sharescart.com)

- Built a fintech platform for trading pre-IPO / unlisted shares — backend in PHP/Laravel, MySQL, with AI-powered workflows.
- Integrated Anthropic Claude AI API to develop an intelligent data-mapping engine — automates complex field-level reconciliation between share registrar data and platform schema.
- Built an AI-powered admin dashboard using Claude API for smart data handling, bulk-upload processing, anomaly flagging, and report generation.
- AI integration reduced manual data-mapping effort significantly and improved accuracy of unlisted share listings.

Full Stack PHP Developer
