WORK EXPERIENCE

PHP Laravel Backend Developer

Apr 2025 – Present

PolicyX.com Insurance Web Aggregator Pvt. Ltd. — policyx.com | sharescart.com

Motor Insurance — Car & Bike (policyx.com/motor-insurance/)

- Led end-to-end backend development of the Motor Insurance module from scratch as sole developer — system design, API architecture, and all third-party integrations.
- Integrated 15+ third-party insurer APIs for real-time premium quotes, KYC validation, and instant policy issuance.
- Built proposal forms, payment gateway integration, and policy PDF download flows using PHP/Laravel.
- Reduced API response time by 25% through backend refactoring and MySQL query optimisation.

Term Insurance (policyx.com/term-insurance/)

- Built backend API integrations and server-side eligibility-logic flows for quote comparison and lead capture.
- Handled insurer-specific field mapping and complex rule processing in PHP/Laravel.

Health Insurance

- Developed backend premium calculation flows and multi-insurer API integrations for the health insurance module.

SharesCart — Unlisted Shares Fintech Platform (sharescart.com)

- Built fintech platform for trading pre-IPO and unlisted shares — backend in PHP/Laravel, MySQL.

- Integrated Anthropic Claude AI API to build an intelligent data-mapping engine that automates field-level reconciliation between share registrar data and platform schema.
- Developed AI-powered admin dashboard for bulk-upload processing, anomaly flagging, and automated report generation; significantly reduced manual data-mapping effort.
